EDUCATION

Master's in Computer Science & Engineering (MS CS) **April 2023 - March 2025**
Santa Clara University — GPA: 3.9/4.0 *Santa Clara, California*
Relevant Coursework: Distributed Systems, Object Oriented Design, Programming Algorithms, Machine Learning

Bachelor's in Computer Science & Engineering (BS CS) **August 2017 - June 2021**
Visvesvaraya Technological University — GPA: 4.0/4.0 *Bangalore, India*
Relevant Coursework: Data Structures, Computer Architecture, Software Engineering, Computer Networking

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, C++, Shell Scripting, Android
Web Technologies	HTML5, CSS3, Bootstrap, React, JSON, REST APIs, SOAP APIs, NodeJS, Flask, Streamlit
Databases	MySQL, SQLite, MongoDB, Redis, Hadoop, Firebase, Spark
Tools & Platforms	Git, Maven, Gradle, Jenkins, JIRA, CI/CD, Spring, Splunk, Docker, Kafka, Linux, JUnit, Selenium

EXPERIENCE

Caltrain **June 2024 - January 2025**
Software Engineering Intern | Python, Tableau, Power BI, Wireshark, Git, Nmap, Agile *San Carlos, CA*
- Led the enhancement of Positive Train Control (PTC) technology, increasing system efficiency by 25% and reliability by 30%, while contributing to the Caltrain ITCM High-Level Design.
- Worked with the cybersecurity team, using Wireshark, Nmap, and Python to analyze TCP dump data, automating detection of affected ports and protocols, reducing analysis time by 40% for over 50 stakeholders.

SCU Frugal Innovation Hub **April 2024 - June 2024**
Software Engineer | Node.js, JavaScript, TypeScript, Git, Kotlin, Docker, Android *Santa Clara, CA*
- Developed 'Equation2Success' anti-bullying app using Android, boosting user engagement by 30% with a user-friendly interface and ticketing system. Implemented SSO integration via OAuth 2.0, increasing app adoption by 25%.

Accenture **July 2021 - December 2022**
Software Development Engineer | Java, JDBC, REST API, Spring, MySQL, Maven, Git *Bangalore, India*
- Developed and deployed RESTful APIs using Java, automating 70% of tasks and enhancing Dyson Europe's UX, improving performance by 50%. Conducted automated tests and QA checks, increasing quality by 25% and reducing issues by 40%.
- Integrated data quality checks against SQL Injection and cross-scripting, managing 200+ data sources, enhancing data integrity by 90%. Overall efforts improved efficiency and user ratings for 400,000 users, fostering business growth.

Kigyan Techno Solutions **March 2021 - April 2021**
Software Engineering Intern | Android, Firebase, REST API, SQLite, Splunk *Bangalore, India*
- Launched "Retail Promotion Planning" module with video streaming on Android, increasing user engagement by 50% and attracting 10000 new users in 3 months. Optimized code by analyzing app logs which reduced crashes by 40%.

ACADEMIC PROJECTS

Digital Wallet | *Java, REST API, MongoDB, AWS, Maven, JSON, Postman*
- Engineered a Digital Wallet platform with Java backend and MongoDB for secure storage of IDs, bank accounts, and logins. Designed REST APIs for CRUD operations, tested APIs with Postman, achieving 40% reduction in server response time.

COVID-19 Live Tracker Dashboard | *Java, REST API, HTML5, CSS, JavaScript, Bootstrap, AWS*
- Created real-time COVID-19 Live Tracker Dashboard, utilizing Java, REST API, HTML5, CSS and Bootstrap, attracting 100+ monthly users. Deployed the full-stack app on AWS to handle traffic spikes during peak pandemic periods.

ParkShare – Optimize & Earn from Your Parking Spot | *Java, Android, REST API, Firebase, SQLite*
- Developed an Android app for monetizing underutilized parking spaces, enabling providers to rent slots and users to find parking, reducing search time by 50% for 70+ users. Integrated Firebase for backend API services.

Fraud Prediction System | *Python, TensorFlow, Pandas, Isolation Forest, Local Outlier Factor, Streamlit, Heroku*
- Developed an ML app to predict credit card fraud using PCA-transformed data with Python and Pandas, reducing dimensions by 45%. Built a TensorFlow neural network, fine-tuned to 97% accuracy, and created a website to display results.

ACHIEVEMENTS & AWARDS

- Conceptualized and published 3 Android apps on the Google Play Store.
- Winner of Karnataka State Council(IISc) sponsorship for "COVID-19 Face Mask Detector" project.
